#### MEMORANDUM OF POINTS AND AUTHORITIES

The Commission has entered four (4) procedural orders in this matter which, among other things, granted Staff's Motion to Extend and vacate the procedural schedule established by the October 14, 2004 procedural order to allow additional time for Staff's review and consideration of the now-consolidated pending applications of the Company and Woodruff Water Company, Inc. ("Woodruff"). By procedural order of November 10, 2004 Staff's Motion to Extend was granted until Staff issues a letter of administrative completeness to the Company at which time the procedural time frame for this case will be restarted.

Staff issued its letter of administrative completeness to the Company on January 20, 2005. Under the terms of the November 10, 2004 procedural order, the parties may reasonably expect that the Commission will now enter a fifth (5<sup>th</sup>) procedural order establishing a new time frame for processing this case, including a date for hearing. The Company's Motion is thus timely filed at this time because the Commission will likely enter the fifth (5<sup>th</sup>) procedural order soon, perhaps as early as the middle of this week.

As the Staff Motion to Extend recognized, the consolidated applications filed by the Company and Woodruff in this case raise issues that are more complex and numerous than those that are raised in a standard application for a new or expanded certificate of convenience and necessity. Important, and possibly precedent setting issues concerning the public interest, the fitness of competing utilities to serve particular geographic areas, current and future water service plans and their impact on current and future customers are some of the issues that the parties may present, and the Commission may consider, in this case. The presentation of evidence on these and

other related issues will likely involve a hearing that is more complex and extended than the normal hearing involved in a routine application for a new or expanded certificate.

For these reasons, the Company submits that prefiled direct and rebuttal testimony and exhibits will aid the Commission in considering the evidence and reaching a decision in this case. As in other complex cases, such as rate cases, the use of prefiled testimony and exhibits will allow for more efficient hearings by, among other things, expediting the presentation of routine matters and permitting the parties and the administrative law judge to focus on and consider the important issues that this case will involve. In addition, it is reasonable to expect that the Company and Woodruff, and perhaps the Staff, will have multiple witnesses and numerous exhibits to present for the Commission's consideration. The presentation of this larger-than-normal evidentiary record is an additional important reason that this case will be handled more efficiently by the use of prefiled testimony and exhibits.

#### **CONCLUSION**

The Company believes, and therefore submits, as detailed above, that this case would be processed most efficiently through the use of prefiled testimony and exhibits by all parties. The Commission entering an order for such at this point in the proceedings will prejudice no party, as a new procedural schedule has not been set and hearings have yet to be scheduled. The Company, therefore, moves the Commission to enter an order directing all parties to prefile prepared direct and rebuttal testimony and exhibits, and to establish a reasonable procedural schedule at the same time.

The following Memorandum of Points and Authorities 26 supports the Company's Motion. 27 28

### MEMORANDUM OF POINTS AND AUTHORITIES

The Commission has entered four (4) procedural orders in this matter which, among other things, granted Staff's Motion to Extend and vacate the procedural schedule established by the October 14, 2004 procedural order to allow additional time for Staff's review and consideration of the now-consolidated pending applications of the Company and Woodruff Water Company, Inc. By procedural order of November 10, 2004 Staff's Motion to Extend was granted until Staff issues a letter of administrative completeness to the Company at which time the procedural time frame for this case will be restarted.

Staff issued its letter of administrative completeness to the Company on January 20, 2005. Under the terms of the November 10, 2004 procedural order, the parties may reasonably expect that the Commission will now enter a fifth (5<sup>th</sup>) procedural order establishing a new time frame for processing this case, including a date for hearing. The Company's Motion is thus timely filed at this time because the Commission will likely enter the fifth (5<sup>th</sup>) procedural order soon, perhaps as early as the middle of this week.

As the Staff Motion to Extend recognized, the consolidated applications filed by the Company and Woodruff in this case raise issues that are more complex and numerous than those that are raised in a standard application for a new or expanded certificate of convenience and necessity. Important, and possibly precedent setting issues concerning the public interest, the fitness of competing utilities to serve particular geographic areas, current and future water service plans and their impact on current and future customers are some of the issues that the parties may present, and the Commission may consider, in this case. The presentation of evidence on these and

other related issues will likely involve a hearing that is more complex and extended than the normal hearing involved in a routine application for a new or expanded certificate.

For these reasons, the Company submits that prefiled direct and rebuttal testimony and exhibits will aid the Commission in considering the evidence and reaching a decision in this case. As in other complex cases, such as rate cases, the use of prefiled testimony and exhibits will allow for more efficient hearings by, among other things, expediting the presentation of routine matters and permitting the parties and the administrative law judge to focus on and consider the important issues that this case will involve. In addition, it is reasonable to expect that the Company and Woodruff, and perhaps the Staff, will have multiple witnesses and numerous exhibits to present for the Commission's consideration. The presentation of this larger-than-normal evidentiary record is an additional important reason that this case will be handled more efficiently by the use of prefiled testimony and exhibits.

### **CONCLUSION**

The Company believes, and therefore submits, as detailed above, that this case would be processed most efficiently through the use of prefiled testimony and exhibits by all parties. The Commission entering an order for such at this point in the proceedings will prejudice no party, as a new procedural schedule has not been set and hearings have yet to be scheduled. The Company, therefore, moves the Commission to enter an order directing all parties to prefile prepared direct and rebuttal testimony and exhibits, and to establish a reasonable procedural schedule at the same time.
